Step 1

If you have previously indicated yes to question 1 or 2 on form 1A go to Step 2.

Is there evidence of a significant risk of disturbing acid sulfate soils at this location?

The WAPC has published maps showing the levels of risk of acid sulfate soils. The maps are shown on figures 1-29 of planning bulletin no. 64 can be downloaded at www.wapc.wa.gov.au/bulletins

Question 1: Do figures 1-29 of the WAPC's Planning Bulletin No 64 Acid Sulfate Soils show the land as having a high to moderate risk of acid sulfate soil occurring within 3 m of natural soil surface? yes no

Question 2: Is the land located in an area, whether depicted in figures 1-29 or not, where site characteristics and local knowledge lead you to form the view that there is a significant risk of disturbing acid sulfate soils at this location? yes no

If yes to either of these questions go to step 2.

If no to both of these questions then no further investigation is required. Sign this form and submit it with your application together with the written results of the preliminary site assessment.

Step 2

Are any of the following works proposed, or likely to be carried out, on the land?

Question 3: Are any dewatering works proposed to be undertaken? yes no

Question 4: Is the surface elevation $\leq 5\text{m AHD}$ and is excavation of $\geq 100\text{m}^3$ of soil proposed? (ie 10 standard dump truck loads) yes no

Question 5: Is the surface elevation $> 5\text{m AHD}$ and is excavation of $\geq 100\text{m}^3$ of soil (ie 10 standard dump truck loads) with an excavation depth of $\geq 2\text{m}$ proposed? yes no

If yes to any of these questions go to step 3.

If no to all of these questions no further investigation is required. Sign this form and submit it with your application.

Step 3

Carry out preliminary site assessment in accordance with Department of Environment and Conservation guidelines.

Note: Copies of documents in the acid sulfate soils guidelines series and further technical advice and information can be obtained from contaminated sites page on the Department of Environment and Conservation's website at <http://www.dec.wa.gov.au>

Question 6: Did the preliminary site assessment reveal the presence of acid sulfate soils? yes no

If yes to this questions go to step 4.

If no to this questions then no further investigation is required. Sign this form and submit it with your application together with the written results of the preliminary site assessment.

Step 4

Carry out detailed site assessment in accordance with Department of Environment and Conservation guidelines.

Question 7: Did the detailed site assessment reveal the presence of acid sulfate soils? yes no

If yes to this questions you should consider modifying the design of the proposal to ensure that there is no disturbance to acid sulfate soils at this location. Regardless of whether you modify the design or not, sign this form and submit it with your application together with the written results of the preliminary and detailed site assessments.

If no to this questions then no further investigation or work is required. Sign this form and submit it with your application together with the written results of the preliminary and detailed site assessments.

Tick box for attachments as appropriate:

- Preliminary site assessment results.
- Detailed site assessment results.
- The proposal has been designed to avoid disturbance of acid sulfate soils at this location.
