

Updates

The WAPC will update Liveable Neighbourhoods as required.

Each update will consist of replacement pages and this update page (and possibly a new contents page).

It is important that the new pages be inserted as soon as possible after being received, and that the old pages be discarded.

Before inserting the update, please check that the previous update has been inserted. Refer to this update page where all updates are listed.

The current contents and update pages and Liveable Neighbourhoods are available on the WAPC website www.wapc.wa.gov.au/LiveableNeighbourhoods. Please register on the website to receive notification of future updates.
