

Our purpose

Planning the future communities of Western Australia

Our vision

Leading a contemporary planning system

Our values

Leadership

Best practice decision making,
stewardship and governance to deliver
clear planning direction

Impact

Delivering high value and enduring
outcomes through foresight and
innovation

Integrity

Upholding the highest standards of
performance and accountability where
diverse perspectives are valued in a
culture of balance and respect

**Our strategic focus
areas 2025 – 2029**

Contemporary
and coordinated
planning

Sustainable
communities and
environments

Residential land
and housing
supply

Economic
growth and
diversification

Infrastructure –
enabled delivery

Our strategic focus areas 2025 – 2029

Contemporary and coordinated planning

Continuous improvement,
responsive to stakeholder
and community needs

Sustainable communities and environments

Enabling community
resilience; responding to
climate change

Residential land and housing supply

Accelerate planning to
support housing diversity
affordability and delivery

Economic growth and diversification

Supporting state-wide
economic development
and expansion

Infrastructure – enabled delivery

Leading better alignment
of development and
infrastructure

Our strategic priorities

1. Streamlined innovative policies, frameworks and practices to deliver a contemporary and efficient system
2. Robust, evidence-based, decision making and evaluation
3. User friendly, digitally enabled assessment journey
4. Coordinated, inclusive stakeholder engagement and communication

1. Rapid facilitation of energy transition requirements in planning frameworks
2. Planning and design for liveability, equity and wellbeing
3. A clear roadmap for the planning response to climate change (adaptation, mitigation)
4. Proactive planning to respond to natural hazards and risks

1. Rapid identification and facilitation of state-wide land supply priority areas
2. Leverage sub-regional frameworks to expedite land release and development sequencing
3. Support the prioritisation of coordinated infrastructure investment
4. Facilitate increased urban infill in station precincts and strategic locations

1. Leverage use of government land for social and economic return
2. Priority planning for strategic industrial land
3. Planning for strategic precincts and projects
4. Land reservation and acquisition to support future growth
5. Strategic use of Metropolitan Region Improvement Fund

1. Enable land use and infrastructure solutions to improve project deliverability
2. Optimise use of existing infrastructure and investment
3. Guide and align planning and environmental approval pathways
4. Facilitate coordinated delivery of enabling infrastructure for Perth and the regions

Cross-government leadership and coordination
Future focused, aligned decision making
